PROFESSIONAL EXPERIENCE

Software Developer | 2023–2026
FullStack Software

- Developed and maintained web applications using Python, Django, and React, improving system efficiency by 25%
- Implemented automated testing and CI/CD pipelines, reducing deployment errors by 30%
- Collaborated with cross-functional teams to design and launch new software features
- Optimized database queries and improved application performance, decreasing load times by 40%
- Provided technical support and troubleshooting for client applications, ensuring high customer satisfaction

Junior Software Engineer | 2022–2023
Techasoft Pvt.Ltd

- Assisted in the development of internal tools and software solutions using Java and JavaScript
- Conducted code reviews and unit testing to maintain high code quality standards
- Participated in agile sprints, contributing to feature planning and backlog refinement
- Created detailed documentation for software modules and user guides
- Supported senior developers in debugging and resolving software issues efficiently

Automation & Bot Developer | 2020–2021

Freelance / Self-initiated Projects

- Designed and implemented Telegram bots to automate reporting, notifications, and task tracking.
- Integrated bots with Excel and other internal tools to generate daily and weekly reports.
- Developed scripts to monitor user activity and system performance, improving workflow efficiency.
- Collaborated with IT teams to integrate bots into internal communication channels.

IT Support Specialist | 2019–2020
TechWave Solutions

- Provided technical support to internal teams, troubleshooting hardware, software, and network issues.
- Assisted in the deployment and maintenance of desktop and server environments.
- Monitored system performance and implemented updates to ensure optimal functionality.
- Maintained IT documentation, including troubleshooting guides and user manuals.
- Collaborated with developers to test new software releases and implement patches.

Mandarin (Chinese) Language Experience

- Worked on Chinese software projects and translated technical documentation into Mandarin.
- Able to read, write, and communicate effectively in Mandarin (Chinese) for professional purposes.
- Collaborated with Chinese-speaking teams on software development and project management.
- Assisted in localization of applications for Chinese markets, ensuring usability and compliance.

EDUCATION

Xi'an University of Technology | 2013–2017
Master of Science in Software Development
- Specialized in AI tools and applications
- Developed both frontend and backend applications for real-world projects
- Recognition for Innovative AI Project Implementation

Tech City College | 2011–2013

Bachelor of Science in Computer Science / Software Engineering
GPA: 3.8
- Lead developer for college software club projects
- President, AI & Robotics Society
- Contributed to open-source projects and hackathons

CERTIFICATES

Project Management | 2018
The Project Management Institute

System Optimization | 2020
CZEC China Zhongyan Engineer Crop

Nuclear Industry Applications (Software & Technical) | [2021]
CNNC China National Nuclear Co;LTD

[Other Relevant IT/Software Certificates] | [2017]
Xi'an University of Technology
